Brew Guide:

Dose: 2.5g

Water Temp: 100°C

Time: 4mins

Our irresistibly refreshing peppermint tea was harvested from the plains of Kosovo, a region known for growing some of the world's highest-quality peppermint. This thirst-quenching tea delivers a crisp, sweet body that will leave you feeling revitalised and calm.

Brew Guide & Serving Suggestions:

For best results we recommend adding 2.5g of this tea to 250ml of water, that's 100°C. We would then suggest leaving your tea to infuse for 4 minutes. If you're looking to serve larger amounts, increase your recipe to fit your teapot or serving size. We advise 1-2g of tea per 100ml water.

Our Peppermint tea can be enjoyed on its own or with 1-2 teaspoons of honey and a couple of slices of lemon for an extra layer of sweet & zingy indulgence. This tea can also be brewed cold or over ice to make a delicious summer drink. If brewing over ice, adjust your recipe to allow for dilution.
